GUADALUPE COUNTY 4-H BAKE SALE

Every club in the county is asked and encouraged to participate in 2012 4-H Bake Sale on April 14! We will have booths set up at Tractor Supply in Seguin, Walgreens on FM 3009 in Schertz and possibly a location in Marion and at Home Depot in Seguin. ALL 4-Hers are encouraged to make desserts for the bake sale. The monies raised will go to the 4-H program in the county; We would like to set up a scholarship system for the 4-H Participation Fee or discount the price next year. Please help out and let's raise a TON of money for 4-H!

YOUTH PROJECT SHOW AND 4-H FIELD DAY

Early Drop Off- May 18 from 6-8pm

Show and Field Day- May 19 from 9am to 3pm

Deadline - Friday, May 4th, 5 p.m.

Cost - \$2.00 per entry

Bexar County is opening their Youth Project show to all Guadalupe, Atascosa, Medina, Kendall, Comal and Wilson Counties. It is like our homemaker's show with even more categories! There are 8 divisions with 73 categories! The divisions are Baked Goods, Clothing and Needle Work; Hobbies and crafts; Horticulture; Photography; Wood and Metal Projects; Art; and Poster Design. If you made it since May 2011, you can enter it! There will also be a field day with all kinds of 4-H activities! Contact the County Office for forms and more information.

Sincerely,

Travis Franke
County Extension Agent - Ag

Matt Miranda
County Extension Agent - 4-H

Jeff Hanselka
County Extension Agent - Ag

TF:MM:JH:kl

"Individuals with disabilities who require an auxiliary aid, service or accommodation in order to participate in this meeting are encouraged to contact the County Extension Office at (830) 303-3889 at least 5 days prior to determine how reasonable accommodations can be made."

AG/NR NEWS

TEXAS RANGE WEBINAR SERIES

Date: April 5 - Integrating Fire and Herbicides

Time: 12-1 p.m.

The Texas Range Webinar Series will provide science-based rangeland management options through live webinars. Experts will be on hand to answer questions. Participants can earn CEU's toward TDA Pesticide Licenses. For more information or to sign up for email notification of future webinars, go to <http://naturalresourcewebinars.org>

SPRING WILDLIFE FIELD DAY

Date: Friday, April 20

Time: 8:30-1 p.m.

Place: M.O. Neasloney WMA, Belmont

Cost: \$15

Deadline: April 18

Topics include Brush Management for Wildlife; Plant Identification, Habitat Management Techniques, and Wildfire Prevention. Lunch will be served and 3 CEU's will be offered. Please RSVP to the Guadalupe Co. Extension Office at 830-303-3889. Contact Jeff at the above number for more information.

REBUILDING THE BEEF HERD PLANNING...TO CAPTURE OPPORTUNITIES

Date: Friday, May 4

Time: 8:30 a.m. to 5 p.m.

Place: San Antonio Livestock Show Auction Barn, San Antonio

Cost: \$40 per person

To register, go to <http://agriferegister.tamu.edu>, keyword: Beef, or call 979-845-2604. Topics include: Beef - Better (and Different) Times Ahead; Forage Recovery & Pasture Restocking; Evaluating Replacement Options; Can a \$2500 Cow Breakeven?; Flexibility in Resource Use; and Leased Grazing - What, Why and How. For more information, contact Bryan Davis at 210-467-6575 or Rick Machen at 830-278-9151.

POND MANAGEMENT PROGRAM

Date: Friday, April 27

Time: 8:30-12 noon

Place: Brehm Farms, 7871 FM 775, New Berlin

Cost: \$10 per person

Deadline: April 25

3 CEU's (1 Gen, 2 IPM) will be given. RSVP to Angel Torres at the Bexar Co. Extension office at 210-467-6575 or the Guadalupe Co office at 830-303-3889. Bring your own lawn chair to sit on and wear cool clothes, as the program will be outside all morning. Topics include Pond & Aquatic Weed Management; Fertilization; Pond Recover & Restocking After Drought; and Predator Management Around Ponds.

PRIVATE APPLICATORS TRAINING AND TESTING

Date: Wednesday, April 25

Time: 8:30 a.m.

Place: Guadalupe Co. Ext. Office

Cost: \$50

This training is for individuals that would like to obtain a private applicators license in order to purchase and use state limited and restricted use pesticides. It is not a CEU course. Training manuals can be picked up and paid for prior to the training at a cost of \$50. If you have any questions, please do not hesitate to call the Extension office.

2012 PECAN FIELD DAY

Date: Thursday, April 26

Time: 12:30 - 4 p.m.

Place: Gary Rainwater's Orchard
555 Seitz Rd, Seguin, Tx

Cost: \$10

Topics will include pecan farm info, orchard management and drought strategies, pecan IPM, and disease management. 3 CEUs for private, non-commercial, and commercial applicators will be given. Bring a lawn chair and come and enjoy the program. For more information, contact the Extension office.

WHEAT FIELD DAY

Date: April 23
Time: 8-11:15 a.m.
Place: Texas Agrilife Research &
Extension Center, Uvalde
1619 Garner Field Rd, Uvalde,
830-278-9151

A complete schedule is available at the Extension Office.

THE EFFICIENCY OF BEEF PRODUCTION

By my way of thinking, the most efficient food-producing animals for human consumption are herbivores. Herbivores are animals that are adapted to eat plants. They have a four-compartment stomach, and the first compartment, the rumen, contains bacteria with the ability to break down cellulose, the primary component of plant cells, so it can be digested by the animal. In addition, according to the USDA-NRCS National Resource Inventory, there are approximately 588 million acres of grazing lands in the United States. These lands are comprised of rangeland, pastureland and grazeable forestland. Much of this land is not suitable for farming, but is well suited for herbivores, such as cattle, sheep, goats, deer, elk, bison and antelope. Just taking cattle into account, these lands are responsible for more than 15 billion pounds of beef production on an annual basis.

How efficient is our beef production system? On the surface, it does not look very efficient compared to other meat products. We can convert 2.5 pounds of feed concentrate into 1 pound of chicken and 3.5 pounds of feed concentrate into 1 pound of pork, but it takes about 6 pounds of concentrate to produce 1 pound of beef. However, this isn't the whole story.

A pig or chicken spends its life consuming feed concentrates while most beef is raised on grass to a weight of 750 pounds prior to entering the feedyard. The average slaughter weight of a steer is 1,300 pounds, so only the last 550 pounds of beef is produced from grain. Thus, beef only uses 2.5 pounds of grain per pound of total product produced. When corn gets expensive, cattle are typically kept on grass to reach heavier weights. Conversely, when corn is cheap, we can afford to

place cattle in the feedyard at lighter weights. The beef industry has the luxury of diversification between grass and grain, giving us an advantage when compared to pork and poultry. We also have the advantage of being able to use our grazingland resources without fear of competition for that resource from pork or poultry. Cattle are very efficient at converting grazing resources into beef. While on grass, it can take from 7 to 25 pounds of forage grazed to produce 1 pound of beef. This may not sound very efficient, but how else can we utilize our grazing lands to produce 15 billion pounds of food for our citizens? And, if managed correctly through proper stocking rates and proper grazing, we can sustain our business and continue producing over 15 billion pounds of food from our grazing lands without using energy from grains.

MAXIMIZING THE EFFICACY OF GLYPHOSATE

Many producers think glyphosate is no longer working for them. In some areas of the U.S., we are seeing glyphosate-resistant weeds. One strategy to prevent herbicide-resistant weeds from developing is to get a good kill with all herbicides that are used. Following are several actions you can take to get the most out of your glyphosate application.

First, and most importantly, carefully and thoroughly read the herbicide label. Among many other important things, the label will state what, if any, additives are needed, the amount of water to use and how big the weeds should be at the time of application.

Add the appropriate additives as directed by the label. These may include spreaders, stickers, drift reducers, wetting agents, water conditioners, liquid fertilizer, etc. If an additive is recommended on the label, it is there to make the herbicide more effective. Also don't use dish soap 6 instead of high quality surfactant. One additive that is highly recommended is 17 pounds of spray grade ammonium sulfate (AMS) per 100 gallons of spray volume. AMS is frequently overlooked as a way to make glyphosate applications more effective.

Use the appropriate amount of water or other carrier as recommended by the label. For any given rate per acre of herbicide, when the rate of

water per acre goes up, the concentration or final dilution goes down. This means the mixture of glyphosate is weaker as a percent of the solution. Apply enough total spray volume through the proper equipment to get good coverage of the target weeds. An application rate of 15 gallons of solution per acre is only 1.3 milliliters or .25 teaspoon per square foot. This illustrates how important it is to have well equipped and calibrated application equipment to get thorough spray coverage.

Remember, almost all weeds are easier to kill when they are small and actively growing. If the label states the maximum height for controlling weed "abc" at rate "xyz" is 6 inches, then control will be reduced or nonexistent for larger weeds or lower rates. Also, if it is too cold, too hot or too dry, and the plants are not growing well, control will be reduced. Another problem when it is very dry is the potential for a heavy layer of dust on the leaves. This prevents the herbicide from being taken in by the weed.

Mixing the glyphosate with another herbicide with another mode of action can also be very helpful. One example is to add 2,4-D to glyphosate applications according to label directions.

Don't overlook the importance of using clean water for the spray solution with glyphosate. Glyphosate binds to soil particles, so if muddy pond water is used, the herbicide effectiveness will be reduced.

Finally, use a trustworthy formulation of glyphosate. There are many quality name brand and generic products. However, the buyer assumes some risk when using a "cheap" formulation from an unproven supplier. Whether you choose name brand or generic, be sure to purchase a quality product.

These tips can also make many other pesticides more effective. By following them, you will be happier with your weed control program now and in the years ahead.

WEED MANAGEMENT IN PASTURES AND FORAGES

by Dr. Paul A Baumann, Professor and Extension
Weed Specialist

(this is a continuation of last month's article)

Perennial Broadleaf Weed Control

[Silverleaf nightshade, western ragweed, Carolina
horsenettle, dogfennel, Texas Bullnettle]

Outlaw (1.0 to 3.0 qts/Ac)

Grazon P+D (1.0 to 3.0 qts/Ac)

Cimarron Max (Label rate I, II, or III)

PastureGard (1.5 to 3.0 pts/Ac)

Surmount (1.0 to 2.0 pts/Ac)

Milestone (5.0 to 7.0 oz/Ac)

*Most perennial weeds can be temporarily managed with the lower use rates listed. However, for complete eradication, higher use rates and repeated applications will be necessary in most cases.

Perennial Grass Weed Control

[Pensacola Bahiagrass]

Cimarron Plus (0.375 oz/Ac)

Cimarron Max (0.33 oz Part A, 1.33 pts Part B)

Chaparral (2.0 to 2.5 oz/Ac)

*For the most effective bahiagrass control, use plenty of water carrier (15-20 gals) per acre, add a good surfactant to increase herbicide coverage and penetration, and fertilize to help bermudagrass encroach back into areas where bahiagrass was removed.

[Johnsongrass]

Outrider (1.33 oz/Ac)

[Smutgrass]

Roundup WeatherMax (Spot treat - 2% solution)

Wick or Wiper (10-33% solution)

*Concentration of Roundup solution needed will depend on wick applicator type. Consult the manufacturer for recommendations.

Velpar (2.75 pts/Ac)

*Expect some injury to bermuda and bahiagrass, and keep away from desirable trees.

The information given herein is for educational purposes only. Reference to commercial products or trade names is made with the understanding that no discrimination is intended and no endorsement by Texas AgriLife Extension Service and Texas A&M University is implied.

4-H NEWS

HORSE VALIDATIONS

Deadline: April 1-May 1
Cost: \$10 per horse
This process will be online this year through 4-H Connect. You must have a profile established, be a paid/active member, have digital photos of your horse (front, left & right sides) to be uploaded during the validation process, and a pdf copy of your horse(s) registration papers for upload, if they are registered. Please select "pay by county check" and bring in a copy of the invoice and a check to so we can send one check. If you have any questions, please do not wait to call.

STATE FAIR VALIDATIONS

Deadline: April 13 (Lamb & Goats)
April 13 (Swine)
Cost: \$10
If you will be showing at the State Fair, you must order validation tags. Validations will be held in the month of June.

STEER TAGS

Deadline: April 18
Cost: \$10
Validations will take place in the month of June, so watch the next newsletter for information.

YOUTH SHOW CHECKS ARE IN

Your Youth Show Checks have been given to your club managers! Be sure to show them your thank you letters BEFORE you get your check...if you don't have your letters, you don't get your check!

4-H HORSE CLUB

Date: April 11
Place: Diamond F Ranch
We will be riding horses and having fun! Riding starts at 5:30 and we will be there till 8pm! Call Mrs. Cowan for more information.

MARION 4-H

Date: April 11
Time: 7 p.m.
Place: Krueger Primary Cafeteria
Next meeting is April 11, 7 p.m., primary cafeteria. Meeting will be conducted by junior officers. Program is on bees. Refreshments by Alderson family. Community service is for families to bring back the brown bag or bring your own bag filled with dog and cat food for animal shelter. There will be a trash pick up April 14, 8:30 a.m. Meet at St. John's Lutheran Church parking lot.

MCQUEENEY 4-H

Date: April 10
Time: 6:30 p.m.
Place: McQueeney Baptist Church
We will have a discussion of our May 5 garage sale, officer nominations, plan out Ronald McDonald House Community Service and announce roundup results.

ROCKIN' U 4-H

Date: April 9
Time: 7 p.m.
Place: County Extension office

KINGSBURY 4-H

Date: April 12
Time: 7 p.m.
Place: Kingsbury Baptist Church

4-H SHOOTING SPORTS

Date: April 1
Time: 1 p.m.
Place: Bexar Shooting Range
We hope to see you there!

SEGUIN 4-H

Date: April 2
Time: 7 p.m.
Place: County Extension Office

NEW BERLIN 4-H

Date: April 2
Time: 7 p.m.
Place: New Berlin Comm. Center
Family meal starts at 6:30! Officer
Nomination are due at the meeting and the
New Berlin VFD will conduct a program on
Fire Safety! Be sure to bring donations of
water bottles and Gatorade for the VFD!

NAVARRO 4-H

Date: April 4
Time: 7 p.m.
Place: Big Red Barn
We will have our business meeting,
nominate officers, review club business and
order our service awards!

CLEMENS 4-H

Date: April 4
Time: 7 p.m.
Place: Bexar Social Hall

CO COUNCIL/ ALPA MEETINGS

Date: May 16
Time: 7 p.m.
Place: County Extension Office
The county council will be holding its election
for officers for 2012-2013 4-H Year! The last
ALPA meeting of the year will also be that
day and they will also be electing officers

4-H & YOUTH DEVELOPMENT ADVISORY BOARD

Date: May 17
Time: 6:30 p.m.
Place: County Extension Office
If you are a member of this committee, you
should attend!

DISTRICT 4-H CONTEST DATES

*Dist Small Bore Rifle and Entomology
Contest- April 14 in Wilson County.
*Dist. Roundup, Senior Fashion Show,
Horse/Beef Quiz Bowl AND Photography
Display- April 21 at Comfort High School
*Dist. Livestock Judging Contest- April 28 at
the Gillespie County Fairgrounds

HELP NEEDED FOR WATER FAIRS & LULING FOUNDATION FIELD DAY!

Its almost May and we will need 4-H helpers
for our May Water Fairs and the Luling
Foundation Field Day!...so far the dates will
be:

May 4 at Watts, 9:30-11:30am
May 17, Luling Field Day in Luling
May 24 at Koennecke,
Please call the 4-H Office and Sign up!

COUNTY RECORDBOOK TRAINING

Date: April 24
Time: 6:30 p.m.
Place: County Extension Office
Come with any questions you may have on
the new format. This training will be
conducted by Sarah Womble, the District 4-
H Specialist over the internet and will be
broadcast at our office! Matt Miranda will be
on hand as well to answer questions!

COUNTY-WIDE PROJECTS AVAILABLE!

Vet Science Project

The Guadalupe County Vet Science Project
will be meeting April 16 @ 7pm at the
County Extension Office.

County Horse Judging Project

The regular meeting will be 16 April @ 6pm
at the Extension Office.

County Gardening and Horticulture Project

Our next meeting will be a field trip the
Braune Farms on April 5 at 6:30 pm. Please
RSVP by Noon on April 5. We will meet at
the Red Barn on Cordova Road at about
6:15. (It is right around the corner from
there)

County Gardening and Horticulture Meeting

This meeting will be April 26 at 6:30 pm at
the county extension office...we will be
talking about pests, diseases and IPM!

SCHOLARSHIP DEADLINES IN APRIL

Apr 1- ALPA Scholarship
Apr 1- Pecan Promotions Committee Scholarship
Apr 1- Gus Persons Scholarship
Apr 1- Bartoskewitz Farm Foundation Scholarship
Apr 1- Co. Youth Livestock and Homemakers Show Scholarship
Apr 13- Wade Busby Scholarship
Apr 24- County Farm Bureau Scholarship
May 1- San Angelo Stock Show Scholarship

GUADALUPE COUNTY FARM BUREAU GEORGE WASHINGTON SCHOLARSHIP

Deadline: April 24
Available to all Guadalupe County High school seniors. Applications are available at the county extension office. It is a \$750 scholarship!

WADE BUSBY MEMORIAL SCHOLARSHIP

Deadline: April 13
For forms, contact the county extension office! Your forms will need to be turned into your school counselors office with all the paperwork filled out!

TEXAS 4-H CONGRESS APPLICATION PROCESS

Well this is the year for the next Texas 4-H Congress at the state capitol in Austin! The dates will be July 15-18 in Austin. The following is how to sign up for each position.

STATE REPRESENTATIVE OR SENATOR

This year, Guadalupe County will be able to send ONE 4-Her for sure to congress as a House of Representative member OR Senator and have THREE on standby. There is a high possibility that we will have more attend than just the one attend. Applications will be available at the County Extension office on April 2 and will be DUE back to the office on April 30 at NOON!

LOBBYIST

Only 4-Hers who attend a Texas 4-H Congress in the past, can apply for this position. 25 will be chosen throughout the state! You must register on 4-H Connect between April 1 and April 30. You can also apply for Rep. And Senator as well.

PRESS CORPS

15 will be chosen from the state. There are no limits to who can apply! You must register on 4-H Connect between April 1 and April 30. You can also apply for Rep. And Senator as well.

If you have any questions, please call the extension office!

NATIONAL 4-H CONGRESS APPLICATIONS

This is the BIGGEST event you can attend in 4-H. A delegation is chosen from each state to attend this week long conference in Atlanta, GA in late November. The application deadline is April 16 and you must do it on 4-H Connect! Let us know if you would like to apply!

COUNTY EXTENSION EDUCATION ASSOCIATION (EEA)

The County EEA ladies are a big part of our Guadalupe County 4-H Program. From making judges gifts and prizes to giving out scholarships, they do a LOT for the kids of the County. Next time you see one of them, be sure to thank them for all that they do!

MEMBER ACHIEVEMENT PLANS (MAPS) HAVE BEEN DISCONTINUED

The state 4-H program has discontinued the MAP. This old form of record keeping is being replaced by the new record book format online. The MAP was created in 1998 and has been outdated for several years. Many Guadalupe 4-H Clubs use the MAP for awards applications, officer elections and more. For this year, that will remain the same. For the 2012-2013 year, we will need to change that!

SCHOOL ELIGIBILITY

If you intend on participating in 4-H and related contests such as the 4-H Food Show, Youth Show, major shows, etc., you'll need to be academically eligible. Once entries are turned in, we'll send a letter to the schools and ask them to declare the eligibility of those students. The letter lists the dates of the entire event (example: SALE is Feb. 4-21), so you are responsible for letting your school know exactly which days you'll be out for the event. Otherwise, the school will think you'll be out that whole time and that will count against you. You are expected to be in school as much as possible. Also note that open events such as county fairs are not eligible for extracurricular days. A general rule is that if the entries for a show come through our office and we have to sign the entry cards, then you must be academically eligible for that show, and any days away from school would be considered extracurricular.

4-H PARTICIPATION FEES

The cost will be \$25 per child when you register on 4-H Connect. Adults will not have to pay the fee, nor will Clover Kids. I understand this may be difficult for some people, but we will make it! Guadalupe County 4-H provides excellent programs to the youth of the county and \$25 is still a very good price for the quality of the programs we do! If you have any questions, please call Matt at the extension office!

DON'T FORGET ABOUT YOUR CLUB REPORTS!!!

Don't forget to turn in your club report forms to the office every month!!! They are due on the 15th of every month! You can also report ONLINE now at <http://guadalupe.agrilife.org/club-manager-report-form/>

NEW RECORDKEEPING SYSTEM RELEASED

Recordbooks have changed for the 2011-2012 4-H year! The website to find the new forms is <http://4hreports.com>. They are different than they use to be; there are different forms for each age category, no more objectives, no more resumes and several other changes...there will be several county wide trainings coming up AND you can get your friendly neighborhood 4-H agent to come to your club to do a program on the new system! Stay tuned for more details!

COUNTY 4-H YEARBOOKS...

...are a great resource for your family. These are being distributed during your 4-H club/group meetings, and it can also be found the 4-H blog. The yearbook provides information on upcoming activities, available awards, Council and Adult Leader Association information and details on each club and group's annual plans and activities. We will distribute the yearbooks to our 4-H Club Managers who will provide each family 1 copy.

NEW COUNTY WEBPAGE

The County Extension Website has changed! It has been upgraded to be more up-to-date and easier to navigate! The new website is <http://Guadalupe.agrilife.org>. The old address will still link to the new page, but there is no telling how long that will last. We also have our Facebook page at <https://www.facebook.com/guadalupecounty4h>. Check it out and spread the word!!! Be sure to click "like" on the page to follow us!

BULLETIN BOARD AND FOLDING NEWSLETTERS

We have a new 4-H year upon us, so we need each club to sign up for a different month to decorate the bulletin board just like last year! We are also asking each club to sign up each month to come in and help fold the newsletter.

YOUR NEWSLETTER...

...is the main source of communication from us to you—our 4-H members, leaders and parents—as well as many of our other Extension clientele and program participants. We try very hard to provide you information to help you know about upcoming activities and opportunities. We take the effort to provide you this publication, please take the effort to read it so you'll know what's happening in our 4-H program. You can always access the newsletter at our website, and those without e-mail will receive a hard copy in the mail. Everyone is also welcome to stop by our office for a copy of the newsletter and other information. Also, please let us know if you are interested in volunteering to help prepare the newsletters for mailing (folding, stuffing envelopes, etc.).

UNITED WAY SUPPORT

You may not realize it, but the Guadalupe County United Way has generously supported 4-H for several years. Their funding supports numerous county, district, state, and national events that our 4-H'ers are involved in. We are certainly grateful for the support, and we encourage everyone to make a personal donation to United Way and work with your employers to match your contribution. Besides 4-H, United Way provides funding for many agencies and organizations throughout the area.

LA QUINTA DISCOUNT WITH 4-H

As you travel, be sure to take advantage of the "Texas 4-H rate" at La Quinta hotels. When booking your stay, just type in tx4h in the promotion/corporate code box. While you get a discount, the Texas 4-H Foundation also receives support.

GET YOUR 4-H ITEMS!!

We still have several items available for purchase: hoodies, t-shirts, signs, bears, luggage/backpack tags, scrapbook sets, cookie cutters, keychains and car magnets. Stop by the office to get your goodies today.

PULS AG FARM

We have an agreement with the Puls Ag Farm on Hwy 123 North just past the Red Barn, to house animal projects for kids who don't have the facility to do so. That way ALL kids can raise an animal, even if they don't have the space. It is free! We really want to make this facility more available next year, so if you know of someone who would like to raise an animal project but doesn't have the space, contact the county office!

TEXAS BRIGADES SUMMER CAMPS

Date: South Texas Buckskin Brigade, Carrizo Springs, June 3-7
South Texas Bobwhite Brigade, Campbellton, June 24-28
Bass Brigade, Santa Anna, July 11-15

Cost: \$400 per cadet per camp, but sponsors are available to provide financial aid

Each camp is limited to 20-30 students from ages 13-17. Applications are available at <http://www.texasbrigades.org>. For more information, contact Jeff, or Helen Holdsworth at hholdsworth@texas-wildlife.org.

ALPA RAFFLE

Adult Leaders Parents Association is having a raffle. Tickets are \$1 each and will be sold through the end of May. The drawing will be held at the 4-H Achievement Banquet. There are 21 prizes, including an Apple iPad, 2 day dove hunt, a camera, several cash prizes, and several Visa gift cards. Tickets can be purchased through your club managers, Matt Miranda or Abby Maberry.
